

Master Supply List

General

If you wish to use an Advent wreath, purchase or make the wreath with candles before the first Sunday of Advent (November 30, 2008). Consider purchasing one nativity that your children are allowed to play with, and print Christ-centered coloring pages from the internet for your young children. You can also print nativity paper doll nativity figures instead of purchasing a nativity! We also enjoy using a Nativity Advent calendar to count down the days until Christmas; however these things are entirely optional for the journey.
